## Elo Computer Modules (for IDS -00 Series Displays)

The Elo TouchSystems IDS (Interactive Digital Signage) touch platform enables increased customer engagement and real-time metrics for OOH (out-of-home) environments by adding an exciting new dimension to traditional broadcast digital signage – the power of touch. The IDS solution incorporates three high-performance optional Computer Modules, ECM1, ECM2 and ECM3, that are designed specifically for the Elo Interactive Display Signage (IDS) touch displays and offer maximum flexibility in delivering high quality digital signage functionality to increase customer engagement in OOH environments. The Computer Modules pair with the Elo [IDS touch displays](#) to form a professional platform that delivers a range of performance options in a sleek and stylish package. The Computer Modules are easily installed into the IDS displays providing an integrated system that optimizes media bandwidth and interactivity for the delivery of highly engaging and measurable consumer content. The optional Computer Modules come in three configurations providing a wide range of touch computing needs with a choice of Intel® processors. The ECM1, ECM2 and ECM3 provide a high standard of quality for customer registration stations and check-in points as well as interactive digital signage applications. For average computing needs, the ECM1 comes with the Intel Celeron™ Dual-Core 2.2GHz processor. For high performance computing needs, ECM2 is powered by Intel Core 2 Duo 3.0GHz processor and ECM3 is powered by Intel Core i5 2.5GHz processor.

The system is interoperable with content management servers and Web-based consoles, providing a seamless connection with the Internet and applications such as multimedia sharing and electronic point-of-sale. The Computer Modules can support optimal partitioning of local cached and network stored content, allowing developers to monitor and deploy content device-to-device or Web connections. Separately, a USB kit is available to enable wireless connectivity to your signage network.

### Computer Module for Elo Interactive Digital Signage touch displays

Computer Module	Part #
2.2 GHz ECM1 with Windows XP	E370690
3.0 GHz ECM2 with Windows XP	E268268
2.2 GHz ECM1 without OS	E587119

3.0 GHz ECM2 without OS	E057911
2.2 GHz ECM1 with Windows 7	E077771
3.0 GHz ECM2 with Windows 7	E588755
2.5 GHz ECM3 with Windows 7	E518070
2.5 GHz ECM3 with no OS	E694079

## **Webcam**

The Webcam module is a USB-powered 1600 x 1200 pixels camera. Specifications are shown below:

<b>Feature</b>	<b>Description</b>
Frame Rates	1600 X 1200 at max 4fps 640x480 at max 25fps
Video Format	YUV
Interface	USB 2.0
USB Video Class	1.1
USB Audio Class	1.0
Part Number	E828885 and E574975

## **Accessories**

<b>Accessory</b>	<b>Part #</b>
4 GB RAM Upgrade Kit <sup>1</sup>	E331130
USB Wireless Kit (B/G/N)	E249774

*(1) Also compatible with B- and C-Series touchcomputers.*
